TO: BOARD OF ELECTION COMMISSIONERS. ABE HANTOUT CHAIRMAN

FROM: VINCENT CAWLEY. CHIEF VOTING MACHINE CUSTODIAN

DATE: AUGUST 2, 1996

SUBJECT: VOTING MACHINE MOVING TRUCK

DEAR COMMISSIONERS:

In the first week of September 1995, the Election Department purchased a moving truck for the purpose of transporting our voting machines. The cost of this vehicle for a twelve month period is \$14,000 towards the purchase price. A driver added to the Budget of the Election Department cost \$10,500 . To Date the vehicle has accumulated 2,805 total miles. An accurate estimate for mileage in a 12 month period would be less than 4,000 miles. At 10 miles per gallon of gas, this fuel at \$1.00 per gallon costs \$400 . Maintenance for this 12 month period, performed by the City of Boston, was \$100 . For steel put around the inside of the truck, for added protection moving machines, a cost of \$550 . The total of \$25,550 , is the price to the Election Department Budget for the first 12 months for this vehicle.

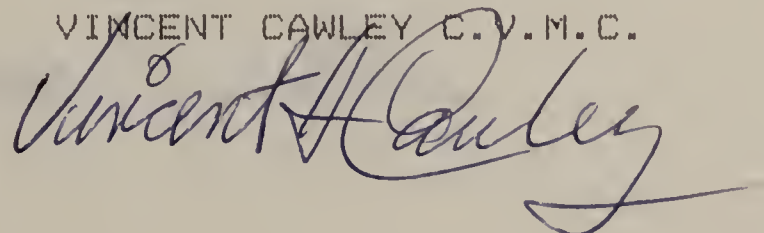

The 12 months, from September 1995 through August 1996 , carried seven State Elections. Highlighted during this period was a Presidential Preference, Two Special Elections, both including a primary and general election, and normal September Primaries followed by November general Election.

The moving truck was used during this period, delivering voting machines to polling locations through out the city and returning the machines back to the warehouse. 850 machines were moved during this period. This also includes purchasing machines and picking them up from Bridgewater, Concord, Halloway and Winchester. The truck also junked 60 surplus machines. To fill out the 12 month time frame I will add the 200 machines expected to be moved in and out for the September 17 Primary.

The moving company, contracted by the City, in FYR 95 charged \$38.50 to move a voting machine. The cost now, in FYR 96 is \$48.50 per voting machine. Assuming all 850 machines were moved before July 96 , that price would be \$32,725 if done by the contracted moving company. The additional 200 machines would cost \$9,700 . This total is \$42,425 . This is a total savings of \$16,875 to the Election Department.

THANK-YOU

VINCENT CAWLEY C.V.M.C.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be carefully documented to ensure the integrity of the financial data. This includes recording dates, amounts, and the nature of the transactions. The second part of the document provides a detailed breakdown of the company's revenue for the quarter. It shows that sales have increased by 15% compared to the previous quarter, which is a positive trend. However, it also notes that operating expenses have risen, which has slightly reduced the profit margin. The third part of the document outlines the company's financial goals for the next quarter. It aims to increase sales further while keeping expenses under control to maximize profitability. The document concludes with a summary of the key findings and a recommendation to continue monitoring the financial performance closely.

**Commissioner Hantout:** Suggested that we first address any problems that may exist since it is so close to election day.

**Marie Boudreau:** Reported that there appears to be a problem with the State Police working the detail at the Saltonstall Building and State House on Election Days. They have not responded to our request dated July 24, 1996. Last Thursday Michael Leonard was informed when inquiring that Sgt. Tocchio would be back on Monday, to-day I was told that he will not be back until next Wednesday September 18, 1996. The issue seems to be some type of payment which no one there can address.

Commissioner Hantout requested that Commissioner Killilea check as to who has jurisdiction over these buildings.

**Mary Barry:** Presented the payrolls for the week of 9/4/96 thru 9/10/96:

**George Cushman:** Discussed using rulers as guidance on the voting list at the polls. Rulers are on order and will be used.

Further discussed the need for additional telephones for the November Election. The Board will address this issue at a later date.

**John Cushman:** Presented an update on absentee voting (attached).

Stated that he has made arrangements for pick-ups of absentee ballots with South Postal Annex on Tuesday.

Stated that he has reported about 20 polling location telephone problems to NYNEX for corrections.

Stated that he will bring to City Hall Operators all telephone numbers to be used on election day.

Commissioner agreed that their telephone numbers will be given and that all of their telephones will be covered on election day.

Presented an updated copy of Control Form. Board agreed that under RESEARCH OF FILES, following the last sentence must be added that an AFFIRMATION CERTIFICATE must be filled.

Further stated that there will be a training session for Election Staff on Saturday September 14, 1996 in this office.

**Martin Kain:** Stated that election officers training sessions have been very well attended.

Discussed cancellations for working at the polls by election officers.

Discussed the escrow ballot process.

**Commissioner Killilea:** Asked if an Alpha list of non eligible voters would be available. This list would consist of people who registered after the August 28, deadline -- would not be of age by September 17th. etc.

Commissioner Killilea was informed that this list would be available.

**Commissioner Hantout:** Gave a report from Vinny Cawley that machines have been set in 241 precincts. Many of the moves were done with our truck at a cost saving.

Informed the Board that a man from East Boston had registered to vote at a downtown registration site conducted by the Office of the Secretary of State. This person claims that he was informed by the Registrar that he could register from his business address. In turn he registered from his business address on Milk Street. After the close of voter registration we informed him that this was not legal. Since he wants to vote in the primary and cannot register he is requesting that his registration be changed to his home address in East Boston.

The Chairman stated that the Board may act on this request.

Commissioner Killilea motioned the Board to adjourn for 1 hour to evaluate this request and to return at 12:45 P.M.

#### **12:45 P.M. Board Reconvened**

The Board agreed to have Officer Robert Marciano investigate these two addresses.. business - 167 Milk Street and home address 92 Webster Street and return at 11:00 A.M. on Friday.

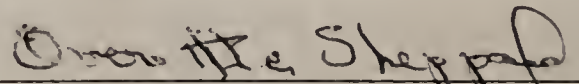

Motion seconded and accepted.

#### **September 13, 1996 - 11:00 A.M. Board Reconvened**

Staff informant visited home address and was informed by owner that this person does indeed live at this address. We will ask this person if he lived at this address on the date of registration August 7, 1996. If he did we will have him come in and register and allow him to vote on the day of the State Primary.

Board of Election Commissioners  
Chairman Abe Hantout,

Here is the schedule for the November 5th election. Starting on Monday, October 1, the voting machine division will begin the necessary preliminary work to prepare for the upcoming election. For the Primary election held on September 17, we used only 833 machines. Since the expected voter turnout is high for the November 5th election, we will be using 919 machines. We will be split into three teams, and each team will strip, set back, and make all necessary repairs to all machines. Each team will repair 6 precincts per day for 14 days for a total of 18 precincts a day and a total of 254 precincts and 950 machines in two weeks. During the preliminary work, teams will work three hours of overtime per night with no work on Saturdays.

We estimate receiving the ballot strips between October 18 and 21. However, from past experience the ballots usually are ready later. For this reason it is imperative that we complete the preliminary work promptly. If the ballots are ready October 18-21, we will go forward with three teams who will complete 8-9 precincts a day which is 24-27 precincts a day overall. With this schedule, we would need five hours of overtime a day, seven hours on Saturdays, and one possibly two Sundays (depending on when the ballots are ready), in order to be have all machines ready by October 30.

In order to be ready for this election, we need at least five days to deliver machines and ballot boxes, raise machines, check telephones, and prepare voting sites for November 5th. This schedule is only an estimate depending on when the ballot strips are received. If the strips are in later, we will need more overtime to complete the necessary work. If the strips are in earlier, the need for overtime will decrease.

With this schedule, the estimated overtime total for the month of October is 97 hours per man. For the month of November, the total would be 35 hours per man. The estimated total number of overtime hours for the November 5th election would be 132 hours per man.

If the ballots are in unusually late, we will use four teams. This would not be an ideal situation due to a lack of experienced personnel, but we will be prepared to do so if necessary. For this reason our plan is to use three teams to ensure another successful election.

There are ~~4,456~~ envelopes prepared and waiting for the arrival of the ballots. When they finally do arrive they will be stuffed by ballot number. Several hundred of these ballots have been segregated because they must be mailed to foreign addresses.

The law allows for these voters to have their ballots counted, only if they are voted and postmarked on or before November 5, and if they arrive in this office on or before November 15.

Once the data is transferred from the City to the State system, we must AV all of these voters on the new system. This involves identifying voters from our disposition sheets.

When the ballots do arrive, we will offer voters the option of Voting In Person. We expect that, given the shortened window of time, traffic in VIP will be heavy. This will probably necessitate additional staff.

# Dying to Vote

---

October 30, 1996

Abe Hantout  
Election Commissioner  
Election Department  
Room 241, One City Hall Square  
Boston MA 02201

Dear Commisioner Hantout,

You may recall that earlier this fall, I contacted you on taping people at Boston polling stations on primary and election days for an educational video, **Dying to Vote**. The video is being made to educate and inspire young people and community groups on the historic and contemporary importance of getting out to vote. You suggested I contact Carmen D'Ambrosio in order to secure the necessary permits for taping, which has been done.

With the permission of the Election Commision, I would like to videotape people at the following polling stations on Election Day, November 5, 1996:

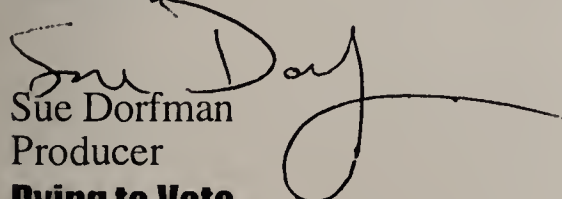

- Boston Public Library, Copley Square
- Boston Latin Academy, 205 Townsend Street, Roxbury
- Boston University, 1111 Commonweatlh Avenue, Boston
- English High School (my polling station), 44 McBride Street, Jamaica Plain
- Jackson Mann, 500 Cambridge Street, Allston
- Jewish Community Housing for the Elderly, 30 Wallingford Road, Brighton
- Martin Luther King Towers, 280 Martin Luther King, Roxbury
- Quincy School, 885 Washington Street, Chinatown
- St. Patricks Cathedral, 400 Dudley Street, Roxbury
- Sara Greenwood School, 189 Glenway Street, Dorchester

The purpose of this day's filming is to show that all types of people go to the polls, and to interview them and bystanders on why they do or do not vote. Ideally, with the permission of the Electoral Commision, I would also like to get images of people casting ballots, such as pulling levers or putting a ballot in a box.

There is a song sung by a young child with lyrics that go, " I'm crying mother, father take a stand, vote for me until I can. Teacher, doctor, preacher man, vote for me until I can. Voting is more than a right you see, voting is your responsibility.." My current plan is to end the video with this song and images of people at the polls to inspire the viewers to use their vote.

Please let me know if you need more information.

Sincerely,

  
Sue Dorfman  
Producer

BOSTON CITY HALL

BOSTON, MA

Attention Jane Murphy

DATE: Friday, October 25, 1996

Regarding our telephone conversation on Thursday, October 24th, please review the following and forward to the appropriate persons;

On Thursday, October 24, 1996 the enclosed flyer (there were two of them) was/were found in my mailbox. As you can see, there is no postage stamp on this flyer, nor a cancellation from the post office. Said flyer was not put in my mailbox by a postal person, but instead by two people (a man and woman) who walked my street and used my neighbor's mailboxes, also.

I have talked to the Hyde Park Post Office and they have confirmed that using mailboxes without postal authority is a violation of Federal Law. I will be filing a complaint with them this afternoon.

Thank you for your consideration in this matter.

**Commissioner Killilea:** Opened the meeting at 11: 00 A.M.

**Martin Kain:** Stated that his training sessions were going well. As of September 18, 1997 he has sworn in 987 people. The following is a breakdown of how many vacancies he has for Election Officers:

Motion seconded and accepted the minutes with corrections

**Commissioner Killilea:** Submitted the Boston Ballot Law Commission Draft copy, (See attached ). Gave copies of material on absentee ballots to Jane Murphy. Questioned whether she sent Escrow ballots to people who send in an application and are not registered.

**Jane Murphy:** Replied that if she can not find a person registered at the address given a letter is sent and a voter registration card is also sent along with it. If we find the same name at a different address, we send the letter asking if they lived at the address so that we can send the ballot. If an application is received and it is after the deadline to register, an escrow ballot will be sent out along with a letter explaining why they received an escrow ballot and a registration form is enclosed for them. Explained that she received applications after the deadline to register, but the director of the nursing home they came from clearly stated the people were from cities other than Boston.

After a discussion it was decided that the people who were from cities other than Boston should receive ballots also.

**John Donovan, Jr.:** Spoke to Maureen about setting up paper ballots.

**Martin Kain:** Stated that the Warden called this office and was told by someone do not open the leatheroid boxes.

Expressed the need for new fax machines or at least have the two we have work on the day of elections. He had to send out several faxes on election day and the machines were extremely slow.

**Commissioner Hantout:** Agreed that George should call the supervisor of field services. Explained that the machines that he was sending faxes to may have been slow.

**Vincent Cawley:** All the ballot boxes are back. There are Police Officers at Frontage Road and at EDIC.

**John Donovan, Jr.:** Distributed copies of four letters he received( See attached). Requested that the Board decide on how to handle the letter from Andrew J. Donovan of 42 N Street, South Boston, Ma. He stated that the request for a copy of the official results from Suzanne Iannella is given to candidates free of charge. He asked that the Board advise on a charge for the other copies requested. Copies are 50 cents per sheet per the ordinance but that we usually cut the charge 50%. Requested that the Board also answer Attorney Dennis Newman's letter regarding placing a paper seal on the vault door, he will take care of the other information requested. Noted that the letter from John K. McCarthy directs us to use paper ballots for the Reform Party Primary.

After a discussion it was decided that all copies, with the exception of the official counts would be 50 cents per sheet as stated in the ordinance.

**Commissioner Killilea:** Motioned to vote on contacting Mr. Andrew J. Donovan and Mr. Robert F. Riley to have them come to the Election Department to discuss taking Mr. Riley off the residency list at 42 N Street. Mr. Donovan's letter will then be sent to the residency commission. Then, if needed we will investigate further.

Motion seconded and accepted.

**Commissioner Hantout:** Stated that we will send a letter to the Secretary of State acknowledging receipt of Mr. McCarthy's letter with a copy to all pertinent parties.

**John Donovan, Jr.:** Discussed problems he was finding with the State System. There are two Major concerns he has.

**1) Initiative Petitions**

**2) Absentee Ballots**

The system is very slow on the petitions, approximately 2 minutes per name. All the programs are not working to process the Absentee Ballots. He will call Jack about this and remind him of the problems with the Registry of Motor Vehicles. With the special elections coming soon we will have to make decisions on whether to continue using the State System. Requested that the Board send a memo to all personnel reminding them that there is no smoking in the building.

**Commissioner Hantout:** Feels that we need to take time deciding if we want to abandon the State System. He will also request a copy of the law on smoking in City Hall. A memo will be sent after he reads the law.

**Martin Kain:** Waiting for payroll. He was told that the checks for the preliminary election were ready early in the week before the final election, yet did not get sent out until that Friday. Most people did not receive a check by Election day, Nov. 4, 1997. He expressed concern and would like to know if there is anything we can do to insure that this doesn't happen again.

Abe Hantout, Chairman  
Board of Election Commissioners  
Boston City Hall  
Boston, Massachusetts 02210

Dear Mr. Hantout:

As you know, there is a state primary on December 9, 1997, for the Special Election Suffolk & Norfolk Senate District. Currently there is no Reform Party candidate, and therefore there is the potential for a confusing write-in campaign. As voter uncertainty may result from the use of the same machine for the Democratic, Republican and Reform Party Primaries, this office will not print ballot labels for the Reform Party. You are therefore directed to utilize paper ballots for the Reform Party primary.

Very truly yours,

**To: The Board**  
**From: John Cushman**  
**Date: November 6, 1997**  
**Re: Tally Sheet Problems**

**Below please find a list of the problems with tally sheets from the November 4, 1997 Municipal Election:**

**Ward 6 Precinct 4 :** There were no Public Counter figures. The machine key envelopes were blank. In order to expedite the tally, I calculated zero blanks for the office of District City Councillor. This remedy in no way affects candidate counts, but undoubtedly reduces the number of ballots cast in this precinct.

**Ward 7 Precinct 7:** There were no Public Counter figures. The machine key envelopes were blank. This precinct did, however, provide us with the machine totals ballots cast. I divided this figure in a way that fit, based on votes cast for the office of District City Councillor. This remedy in no way affects candidate counts, and is the true number of ballots cast on machines in this precinct.

**Ward 12 precinct 2:** There were two paper ballots at this precinct. There was no tally of these two ballots. The number was included in the number of ballots cast in this precinct. At this point there is no way of knowing how these voters voted; and their votes are reflected as blanks.

**Ward 18 Precinct 4:** There were two paper ballots cast in this precinct. However, there were three votes tallied for the office of District City Councillor. I increased the number of ballots cast by one; because at this point there is no way of determining which candidate received an extra vote.

**Ward 22 Precinct 8:** There were three machines used in this precinct. There were no machine serial numbers noted for these machines. One key envelope was completed and a serial number assigned. However, the other two envelopes were incomplete, I had to guess which serial numbers to assign to these other machines.

**In addition, there were two loose paper ballots that were returned with the tally sheets. The votes on these ballots are reflected in the tallies.**

These ballots are sealed in block envelopes and are to be found in the appropriate ward drawers in our vault. There is one ballot for Ward 21 Precinct 12, and one ballot for Ward 13 Precinct 4.

Dear Mr. Donovan:

After voting in the last election at Saint Brigid's church on East Broadway, South Boston, I asked the clerk who was registered from my home at 42 N. Street, South Boston. She listed the following people:

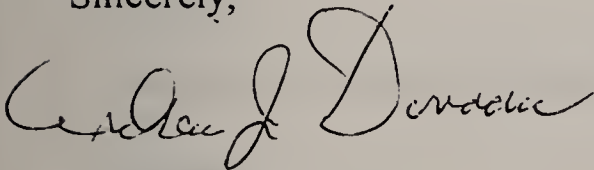

Andrew J. Donovan, Barbara G. Donovan, Janet N. Donovan, Gregg A. Donovan, Theresa B. Douglas, Robert P. Gooch and Robert F. Riley.

ROBERT RILEY DOES NOT AND HAS NEVER LIVED AT MY HOME.

At the present time, Mr. Riley is employed at the Inspectional Service Department, City of Boston. He is using 555 East Broadway, Apt. 168 as a residential address. This is nothing more than a Post Office Box, located inside a Store 24.
